

Name: _____ () Class: _____ Date: _____

Unit 1 Getting along with others

Determiners (Set A)

Michael has written a diary entry about his visit to an old people's home. Complete it by underlining the correct answers in the brackets.

Dear Diary,

I paid (1. a / an / the) visit to an old people's home today. It was great fun playing with (2. a / an / the) elderly and working with other volunteers!

It was my first volunteering experience with Social Services Club. (3. That / This / The) morning, we gathered at the school playground. We were assigned different tasks: (4. some / more / less) of us packed the gifts, including books, biscuits and daily necessities, while others prepared things needed for the games. We travelled to (5. a / an / the) old people's home by coach. I was quite excited when I was on the way there.

(6. Many / Much / More) old people don't have visitors often and spend most of their time alone, so they looked a little uncomfortable talking to strangers. (7. None / More / Some) of them were very shy at first, but after playing (8. little / some / more) icebreaking games, they opened up and told us a lot about themselves. I got to know more about them from their stories. After eating lunch together, we sang songs for them. (9. Some / None / More) of the elderly people even sang with us. I could tell from their smile that they all enjoyed their time with us. Before we left, we gave them (10. the / those / more) gifts and cards we made.

I had (11. a / an / the) extremely meaningful day with them and I've learnt a lot in (12. that / this / a) visit. I really enjoy interacting with them!
